

ANNOUNCEMENT

Symposium and Workshop on The Effects of Low Frequency Magnetic and Electric Fields on Biological Communication Processes

A symposium and workshop on The Effects of Low Frequency Magnetic and Electric Fields on Biological Communication Processes will be held at Wildwood Inn, Snowmass-at-Aspen, Colorado 81611, on 18-24 February 1973. The general chairman is Anthony Sances, Jr., and program cochairmen are Josep G. Llaurado and Joseph H. Battocletti. Topics will include fundamental mechanisms of low frequency electric and magnetic field interactions with biological systems, observed effects of low frequency electric and magnetic fields on biological systems, and natural and man-made sources of low frequency electric and magnetic fields and safe levels of exposure. For further information write to:

Dr. Josep G. Llaurado
Wing D-12N
Veterans Administration Center
Wood, Wisconsin 53193
