

A NOTABLE  
CAREER IN  
FINDING OUT  
PEYTON ROUS  
1879-1970

*The Rockefeller University Press*

NEW YORK • 1971

*A Notable Career in Finding Out* contains the texts of reminiscences by four men who were fortunate enough to have known Peyton Rous not only in the laboratory but also in many of those other worlds through which he moved with such enthusiasm and joy, observing and discovering. It is the first book devoted exclusively to this distinguished Nobel laureate and pioneer in cancer research. The contents are

*a view from the center of a world*

BY JAMES S. HENDERSON

*his sparkling versatility*

BY PHILIP D. McMASTER

*stay as close to nature as you can*

BY JOHN G. KIDD

*his business was "finding out"*

BY CHARLES HUGGINS

This limited edition of 1500 copies, 48 pages 6¼ x 9½, has been printed by letterpress and photolithography. 500 copies were bound in elephant hide paper over boards, and stamped in genuine gold. Included are facsimile reproductions of a letter and of newspaper columns by Dr. Rous, never before published in book form. \$5.00

## THE NEUROSCIENCES:

SECOND STUDY PROGRAM

FRANCIS O. SCHMITT, Editor-in-Chief

1100 pages 607 illustrations indexes 8½ x 11

Reference Edition \$60.

Professional Edition \$30.

The MIT Neurosciences Research Program held a three week Intensive Study Program during the summer of 1969 in Boulder, Colorado. Eighty-seven leading scientists presented the papers now collected in this 1100-page volume. This is

*a companion volume to The Neurosciences: A Study Program, published in 1967 for the Neurosciences Research Program's first study program (now in its fourth printing).*
