

INTERESTED IN BIOPHYSICS?

STUDENTS JOIN FOR ONLY \$25, EARLY CAREER JOIN FOR ONLY \$55

The Biophysical Society was founded in 1957 to encourage development and dissemination of knowledge in biophysics. It does so through its many programs, including its meetings, publications, and committee outreach activities. The Society's members, nearly 8,000, work in academia, industry, and in government agencies throughout the world.

Members from more than 45 countries work in fields represented in the list below:

- *Applied Mathematics*
- *Bioenergetics*
- *Cell Biophysics*
- *Cell Signaling*
- *Neuroscience*
- *Channels, Receptors, Transporters*
- *Information Theory*
- *Membranes*
- *Muscle and Contractility*
- *Molecular Biology*
- *Electrophysiology*
- *X-Ray*
- *Photobiophysics*
- *Proteins*
- *Signal Transduction*
- *Spectroscopy*
- *Supramolecular Assemblies*
- *Nucleic Acids*

Benefits of Membership

- Free *BJ* Online - Now published bi-monthly
- Bi-Monthly Newsletter
- Student Travel Award eligibility
- Free color illustrations in *Biophysical Journal*
- Biophysical Society Discussions
- Free Employment Placement Service
- Voice in Public Affairs
- Discounted page charges when you publish in *Biophysical Journal*
- Discounted Registration Fees for the Annual Meeting
- Privilege to submit an Annual Meeting abstract
